GLASS MANUFACTURING PROCESS:

1

COMPOSITION OF THE MIXTURE

Silicate

Calcium Carbonate

Cullet,

Alumina

Dolomite

Sodium Carbonate

Sodium Sulphate,

2

MELTING THE MIXTURE

chemical reactions between components

Elimination of gas

A perfectly molten mass is obtained

Temperature between $1,450^{\circ}\text{C}$ and $1,600^{\circ}\text{C}$

3

FORMATION OF THE GOB AND SHAPING TO BOTTLE

Gobs Fall from the feeder and are then cut with a shear

The glob falls in to the parison

When it has its final Shape:

1/ it is cooled down

2/ it is un moulded

3/ it is placed on the conveyor belt and taken to the annealing lehr

4

ANNEALING PROCESS

The bottles are placed inside the lehr to eliminate residual stress and complete the process

5

Quality Control

Items are checked following the quality parameters and the standards agreed with the customer

At Alok Glass Works, we meld our deep-rooted commitment to sustainability with our passion for crafting, envisioning a brighter, eco-conscious future in every shimmering piece.

Leading the Eco-Conscious Manufacturing Movement Guided by a deep-seated ethos, Alok Glass Works is committed to revolutionizing the industry with green solutions. Every decision, from sourcing raw materials to product delivery, echoes our commitment to the planet:

Harnessing Solar Power:

By transitioning to solar energy, we're reducing our carbon footprint and championing renewable energy sources. We proudly integrate our operations with government-supplied electricity, ensuring cleaner, greener energy consumption.

Innovative Furnace Systems:

Using cutting-edge technology, our natural gas-powered furnaces (eliminating the detrimental impacts of coal and oil) operate at an optimal gas-to-air ratio. This approach reduces environmental impacts and cuts gas consumption costs, blending eco-responsibility with efficiency.

Streamlined Manufacturing:

With our comprehensive in-house system, we minimize environmental costs associated with transportation, championing a near-zero carbon footprint.

ENSURING SAFE GLASSWARE:

At Alok Glass, we take your safety seriously. We are proud to offer glass products that are completely free from harmful heavy metals like lead, arsenic, cadmium, and mercury. Unlike many suppliers in India and China, who often provide products with trace or significant levels of these toxic substances, we go above and beyond to ensure our glassware is safe for food, beverages, and personal care.

What causes of **Heavy Metal Poisoning**

OUR COMMITMENT TO EXCELLENCE

Your Safety is Our Priority:

At Alok Glass, we are fully committed to meeting the strictest health and safety regulations. We follow all guidelines to ensure our products are free from harmful contaminants, offering you peace of mind with every purchase. With Alok Glass, you can trust that your glassware is crafted with the utmost care for both safety and quality.

We regularly monitor our glass products and conduct third-party glass analysis reports to ensure compliance with the highest safety standards. We've invested in advanced heavy metal separators. This ensures that our glass is pure and free from any contamination, making it safe for the American and European markets.
