

ALOK GLASS WORKS

**MANUFACTURER AND SUPPLIER
OF GLASS PRODUCTS**

Tableware | Dinnerware | Kitchenware | Jarware | Bottles

Alok Glass Works,

A revered name in the glass manufacturing industry, serves as the umbrella entity for several specialized companies, each bringing unique expertise to the glassware domain.

Established in the 1990s, Alok Glass Works has relentlessly pursued excellence, evolving from its humble beginnings to a conglomerate that spans various facets of glass production. From tableware to intricate bangles, from automotive headlights to custom-designed bottles, its diverse subsidiaries ensure a holistic approach to glass craftsmanship. As a torchbearer in the industry, Alok Glass Works epitomizes quality, innovation, and tradition, upholding a legacy while continuously pushing the boundaries of glass artistry.

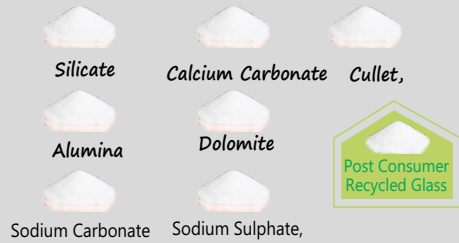

Quality Statement

At Alok Glass Works, our dedication to unparalleled quality is both an enduring legacy and a forward-looking vision. Rooted in a harmonious blend of traditional craftsmanship and state-of-the-art technology, we consistently transcend global standards of excellence. Our commitment is deeply woven into every facet of our production process, from employing cutting-edge equipment for precision to rigorous continuous quality checks ensuring impeccable consistency. As we navigate the evolving landscape of glass manufacturing, our unwavering focus on superior quality remains our guiding light, ensuring that every Alok product stands as a testament to world-class craftsmanship, innovation, and artistry.

GLASS MANUFACTURING PROCESS:

1 COMPOSITION OF THE MIXTURE

2 MELTING THE MIXTURE

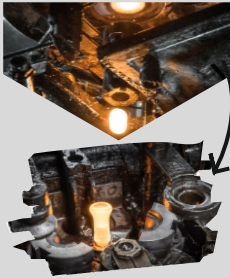

chemical reactions between components
Elimination of glass

A perfectly molten mass is obtained

 Temperature between $1,450^{\circ}\text{C}$ and $1,600^{\circ}\text{C}$

3 FORMATION OF THE GOB AND SHAPING TO BOTTLE

Gobs Fall from the feeder and are then cut with a shear

*The glob falls in to the parison
When it has its final Shape:*

1/ it is cooled down

2/ it is unmoulded

*3/ it is placed on the conveyor belt
and taken to the annealing lehr*

4 ANNEALING PROCESS

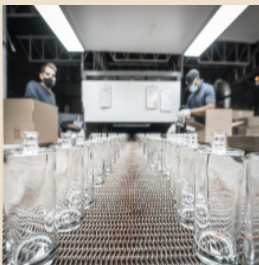

The bottles are
placed inside
the lehr to eliminate
residual stress and
complete the process

5

Quality
Control

Items are checked following the
quality parameters and the
standards agreed with the customer

Our Products:

Elevate your gatherings with our exquisite range of glassware. Our tumblers, with their pristine clarity and delicate craftsmanship, promise to turn every sip into an experience. Complement them with our tableware collection, where functionality meets artistry, setting the stage for unforgettable dinners. Our jars, not just storage solutions, are a blend of elegance and utility, perfect for showcasing your culinary creations. And our bottles, a harmonious blend of form and function, are ideal for serving beverages with a touch of sophistication. Whether it's an elegant party or a cozy dinner, our glassware is designed to turn every moment into a celebration.

Gifts Items

Gift perfection with Alok Glass: from mixed tumbler-jug sets and bespoke dinnerware to tailor-made treasures for every occasion.

At Alok Glass Works, we meld our deep-rooted commitment to sustainability with our passion for crafting, envisioning a brighter, eco-conscious future in every shimmering piece.

Leading the Eco-Conscious Manufacturing Movement Guided by a deep-seated ethos, Alok Glass Works is committed to revolutionizing the industry with green solutions. Every decision, from sourcing raw materials to product delivery, echoes our commitment to the planet:

Harnessing Solar Power:

By transitioning to solar energy, we're reducing our carbon footprint and championing renewable energy sources. We proudly integrate our operations with government-supplied electricity, ensuring cleaner, greener energy consumption.

Innovative Furnace Systems:

Using cutting-edge technology, our natural gas-powered furnaces (eliminating the detrimental impacts of coal and oil) operate at an optimal gas-to-air ratio. This approach reduces environmental impacts and cuts gas consumption costs, blending eco-responsibility with efficiency.

Streamlined Manufacturing:

With our comprehensive in-house system, we minimize environmental costs associated with transportation, championing a near-zero carbon footprint.
